

GENERAL RULES

1. The rules and/or regulations set forth herein do not express or imply warranty of safety, from publication of, or, compliance with these rules and/or regulations. They are intended as a guide for the conduct and are in no way a guarantee against injury to participants. By entering or competing at the facility, you are agreeing to the terms of these and any other posted rules.
2. Rule and procedure changes may be made at any time with or without prior notice.
3. Management reserves the right to reject or allow the entry of any car, driver, or person for any reason.
4. No intoxicating beverages, narcotics, or illegal substances are to be consumed and/or used during any event, by anyone, entering the racing facility.
5. Verbal or physical abuse of any official or other entrant on premises, is, strictly prohibited. Fighting on premises at any time will subject offender(s) to possible suspension & ejection. Any fighting by a driver or a team member will result in the driver or drivers being disqualified from the event. Any driver that is disqualified from any event will forfeit any monies that they may receive for that night.
6. Officials must be immediately notified of any car or driver change. Any changes will result in the driver and car starting at the tail of the next race they were eligible to start.
7. Drivers earn starting positions in races, cars do not. If a driver scratches to allow another driver to drive their car, the second driver must have already been eligible for the race they wish to enter.
8. All decisions of scoring judges & officials are final.
9. Drivers, owners, and/or crew members have no claims against management or any official due to disqualification or damage to driver or equipment resulting in an altercation arising from un-sportsman-like conduct on behalf of drivers, owners, and/or crew members.
10. The Press Box is off limits to all participants at all times, unless permission is granted by the Race Director.
11. No Driver or Crew Member shall interfere with the flagman at anytime.
12. Anyone bringing legal action against the speedway, management, and/or officials will be suspended indefinitely.
13. Whenever it is deemed dangerous, unsafe, or unjustified to continue any racing event, it may be stopped at any point by the discretion of management.
14. Per given race night, race cars must claim 1 class only, however, a driver may drive in more than 1 class by paying for an additional Pit Pass at the Pit Gate for each additional class that they are wanting to compete in. (NO EXCEPTION)
15. Every year you must file a completed registration form and an IRS form W-9 filled out and returned to management.
16. All pit entrants must sign a voluntary waiver & release from liability & indemnity agreement, and pay for and receive an authorized pit pass.
17. Make absolutely sure you keep your authorized pit pass. In the event of a rain-out, it is the only means by which you will be allowed admittance on the rescheduled date. Your signature on pit sheets, or "Don't you remember me?", is not acceptable to gain re-admittance!
18. Anyone caught illegally entering pits & cannot produce an authorized pit pass will be immediately ejected from track. Management reserves the right to ask for proof of admission at any time.

Management also reserves the right to pursue legal action against anyone trespassing anywhere on speedway property.

19. Pay-off procedure: Only owner and/or driver may pick up any prize monies. Be prepared to show a valid driver's license or some other form of I.D. if you are asked.
20. Prize monies left unclaimed over 14 days will become the property of Lake Cumberland Speedway.
21. The management reserves the right due to inclement weather conditions and/or any unforeseen conditions, to make changes in the posted pay-off structure. You will be notified as soon as possible if this condition arises.
22. A Rain-out will be declared unless the 1st Feature Race is complete. After that point NO RAIN CHECKS will be issued. Any Feature with ½ the laps completed will be paid according to the way they were running when rained out.
23. Receivers and Transponders are mandatory in all divisions anytime a driver is on race track.
24. Due to insurance regulations, 4 wheelers are only permitted in the pit area. They are NOT allowed in the parking lots or any other areas of the track. Also, 4 wheelers may only be operated by persons 16 years of age or older.

Flag Rules

Green Flag: (Green Light) Racing is underway on the entire track. Anyone advancing position(s) prior to the green flag is subject to being black-flagged. All cars must complete the first lap for an official start. **Yellow Flag:** (Yellow Light) Means caution. There is NO racing back to the start finish line. Cars will line up according to the last scored lap. Any car not maintaining a slow and cautious speed is subject to being black flagged or disqualification. **White Flag:** One lap to go! **Black Flag:** Driver has been disqualified, and must go to the pits. Once a driver receives the black flag the car will be dropped from scoring. **Red Flag:** Stop regardless of position on track, and do not proceed unless and/or until an official authorizes you to move your car. **Blue/Yellow:** Lay-over flag, means lapped cars move to the bottom of the track.

SAFETY EQUIPMENT

1. NO batteries to be located in the drivers' compartment/cockpit.
2. Full containment racing seats are Strongly Recommended. All seats must be mounted properly & securely per the Technical Directors recommendations. The use of Grade 5 or better hardware is also required to attach the seat to the chassis.
3. The use of a 5, 6 or 7 point driver restraint system certified to SFI Spec 16.1 or 16.5 is REQUIRED no exceptions. All driver restraint systems shall not be in excess of 3 years of age past the date of manufacture. The use of a 7 point driver restraint system is strongly recommended. All mounting points of the racing harness MUST be mounted properly in accordance with the manufacturer's instructions, and securely mounted to the chassis with the use of grade 5 or better hardware.
4. Window Nets certified to SFI Spec 27.1 are highly recommended and must be mounted in accordance with the manufacturer's instructions and technical director's satisfaction.
5. A driveline "sling" is Recommended.
6. A helmet certified to Snell SA2000, SA2005 or SA2010 Standard or SFI Spec 31.1A, 31.1/2005 or 31.1/2010 is REQUIRED.
7. A driver suit certified to SFI Spec 3.2A/5 is Highly Recommended.
8. Gloves certified to SFI Spec 3.3/5 are Highly Recommended.
9. Fire resistant socks are Highly Recommended.
10. Eighteen (18)-gauge steel or one and one-eighth inch (1 1/8") aluminum "cockpit tub" to protect front, sides and rear of driver is HIGHLY RECOMMENDED.

11. Head and Neck Restraint Devices/Systems are Highly Recommended

12. At all times during an Event (practice, qualifying, and competition), drivers must connect their helmet to a head and neck restraint device/system certified to SFI Spec 38.1. The device/system must display a valid SFI Spec 38.1 label. The head and neck restraint device/system, when connected, must conform to the manufacturer's mounting instructions, and must be configured, maintained and used in accordance with the manufacturer's instructions

13. It is the responsibility of the driver, not speedway officials, to ensure that his/her device/system is certified to SFI Spec 38.1, correctly installed, maintained, and properly used.

ON TRACK RULES

1. Working on cars, on track, is prohibited.

2. No one except drivers, their cars, & track officials are allowed on track after racing begins.

3. There is NO PITTING under Yellow allowed during Heats & B-mains. (Feature will have a "Hot Pit")

4. If you bring out a caution, you go to the tail. Anyone who makes contact will be considered part of the caution. Anyone who spins to avoid the caution, and doesn't make any contact with anyone will get their spot back. On initial starts, if a caution comes out for only (1) car, that car will restart on the tail. If it is a Multi-car caution, everyone will get their starting spots back. Stopping at an official under yellow flag conditions for certain safety reasons is allowed. (Note: In a Yellow or Red Flag situation, officials will revert to previous scored lap or initial start.)

5. Officials reserve the right to penalize drivers that either directly cause or intentionally cause a caution. If officials determine that a driver intentionally caused a caution, officials may disqualify the driver for the night.

6. Any car causing 2 cautions in a single race will be black flagged.

7. Anything dragging or hanging on a car that is determined unsafe will cause that car to be black flagged.

8. Under Green Flag Condition, you may enter the infield from the Back-stretch or Front-stretch if you have a problem. **YOU MAY NOT RE-ENTER THE TRACK DURING GREEN FLAG CONDITIONS.** Once you pull to the infield you will be considered out for the remainder of that race.

9. Under a red flag, there is no working on cars on the track. Cars will not be allowed to go to infield for work.

10. After receiving the checkered flag, cars are to slow down and exit the track in turn 2, unless you are required to scale in the infield. **DO NOT** stay in the throttle or continue around the track.

11. Anyone jumping the start will be given one warning. Second offense will result in a one row penalty.

12. On the third complete restart of any race, which is not the result of someone jumping; the field may be put in single file order.

13. All Starts will utilize a Designated Box. The pole-sitter will set the pace of the field. **ABSOLUTELY NO LAYING BACK OR BRAKE CHECKING!** All cars are to stay nose-to-tail and side-by-side. **ABSOLUTELY NO ACCELERATING UNTIL YOUR CAR ENTERS THE**

DESIGNATED BOX. All restarts in Heats and B-mains will be single-file. On single-file restarts a cone will be utilized to keep cars in a single line. The Start will still take place in the box at the cone. Passing before, hitting, or going under the cone will result in offending car being penalized 2 spots + 1 spot for every car passed at the next yellow flag or end of the race whichever occurs first. During the Feature race we will utilize Delaware Double-file restarts for up to 3 attempts.

14. If a car leaves the track and goes to the actual pit area during any race, that car is considered out of that race and will not be allowed to return to the track for that race. 1. Receivers and Transponders are Mandatory in all Late Model, Open-wheel Modified, Super Stocks, 4-Cylinder, and Mini Cup/Cyclone events.

2. All regular show events in all divisions will have a 5-minute plus 1-minute per lap time limit starting with the initial green flag. Once the time limit is passed, the race will be allowed to continue until there is a caution flag or the race is completed. If a caution occurs, the race will be given one chance at a "green-white-checkered" finish. If another caution comes out, the race will be considered complete at that point.

3. If you bring out a caution, you go to the tail. Anyone who makes contact will be considered part of the caution. Anyone who spins to avoid the caution, and doesn't make any contact with anyone will get their spot back. On initial starts, if a caution comes out for only (1) car, that car will restart on the tail. If it is a Multi-car caution, everyone will get their starting spots back. Stopping at an official under yellow flag conditions for certain safety reasons is allowed. (Note: In a Yellow or Red Flag situation, officials will revert to previous scored lap or initial start.)

4. After receiving the checkered flag, cars are to slow down and exit the track in turn 2, unless you are required to scale in the infield. DO NOT stay in the throttle or continue around the track.

5. Anyone jumping the start will be given one warning. Second offense will result in a one row penalty.

6. On the third complete, "non-jumping" restart of any race, the field may be put in single file order.

7. All Starts will utilize a Designated Box. The pole-sitter will set the pace of the field.

ABSOLUTELY NO LAYING BACK OR BRAKE CHECKING! All cars are to stay nose-to-tail and side-by-side. ABSOLUTELY NO ACCELERATING UNTIL YOUR CAR ENTERS THE DESIGNATED BOX. All restarts in Heats and B-mains will be single-file.

8. On single-file restarts a cone will be utilized to keep cars in a single line. The Start will still take place in the box at the cone. Passing before, hitting, or going under the cone will result in offending car being penalized 2 spots + 1 spot for every car passed at the next yellow flag or end of the race whichever occurs first. During the Feature race we will utilize Delaware Double-file restarts for up to 3 attempts.

9. You may enter the infield at any entrance under Green flag. YOU MAY NOT RE-ENTER THE TRACK DURING GREEN FLAG CONDITIONS. Once the car is in the infield it will be considered out for the remainder of that event.

10. Under a red flag, there is no working on cars on the track. Cars will not be allowed to go to infield for work.

IN-RACE RULES & PROCEDURES:

11. If a car leaves the track and goes to the actual pit area during any race, that car is considered out of that race and will not be allowed to return to the track for that race.

12. Absolutely NO ONE is allowed in the infield until Feature Events which allows a "Hot Pit" area in the infield. Only 2 Crew Members are allowed per car for "Hot Pit" area. Officials reserve the right to black flag any cars whose crews violate this rule.
13. Officials will not work on cars, they will only pull sheet metal off of a tire under cautions.
14. Due to insurance regulations, 4 wheelers are only permitted in the pit area. They are NOT allowed in the parking lots or any other areas of the track. Also, 4 wheelers may only be operated by persons 16 years of age or older.
15. Double file restarts will be used on all Feature events. *Procedures are as follows:*
16. Officials reserve the right to revert to single file starts if required due to time or track conditions.
17. Lake Cumberland Speedway will use Receivers at all events. Receivers are small, one-way radios that allow a designated speedway official to talk to the drivers in order to speed up caution periods and prevent further wrecks. The Receivers will be mandatory in all divisions anytime a driver is on the race track. The track will have Receivers available for rent. More information is available below.
 - a. Receiver model used: Elite 1600
 - b. Frequency used: 454.0000
 - c. Rental price: \$10
18. Lake Cumberland Speedway will utilize Transponders at all events. Transponders will be used to time and score cars during the events. Transponders will be mandatory in all divisions. Drivers will be responsible for purchasing a pouch for the Transponder. The Pouch must be mounted securely to the car, and its location will be on Right Rear Axle Tube. If a driver does not have a pouch, they will be able to buy at the race track for \$20. Transponders will be rented on Regular shows for \$10. The driver is responsible for the Transponder in the event it gets lost or damaged. If a Transponder is lost or damaged, the driver is responsible for the Replacement Cost of \$150. A driver's license will be held along with payout until the Transponder is turned back in each night. If a driver has their own Transponder, a \$5 activation fee will be charged to use this Transponder each night. All Transponders must be Westhold brand in order to work with our loop system. (NOTE: Westhold Transponders that are the ACTIVATED style **will not work** with our loop system)

Once under yellow, cars will be put in single file order with all lapped cars going to tail. Leader of the race will have the first row alone. Second place car will be given choice of inside or outside row. When asked, drivers should give a clear indication to the official as to which row is chosen. Track officials reserve the right to make lane choice for driver if clear indication not given.

Third place car will go in opposite row from the second place car. Fourth place will go behind second place, fifth behind third and so on. Each row does NOT make their own selection. Cars attempting to go in a different row than they are assigned will be sent to the tail.

Receiver start-up procedures

1. Remove battery door and put AAA Battery in Receiver.
 2. Confirm that the unit reads 454.0000
 3. Reattach and lock battery door.
 4. Plug in earpiece and put foam ends in ears.
 5. At end of night's racing remove battery and reattach door.
1. Always use new batteries:
The most common problems that occur with Receivers are typically cured by putting in new

batteries. Also, new batteries can sometimes be bad right out of the box, so check with a known good battery.

2. Use good quality batteries.

3. Do not put your battery in until just before going out for your heat. Receivers are not used during hot laps or qualifying, so no need to put the battery in early and reduce the life of the battery.

4. The Receiver automatically goes to the proper frequency (454.0000) when the battery is inserted and you should never need to change the channel.

5. If you experience sound distortion, try turning the volume down. Experience has shown that turning the volume to max can cause the sound to distort or break up.

6. Attach your Receiver to your belts or somewhere else close-by in a way that will not cause the earpiece to come unplugged during a race.

7. When rolling out on the track for a race, you will receive a Receiver check through your Receiver. This is to verify that everyone's units are working. You will also receive directions as to where to lineup. During green flag laps, the Receivers will only be used to call out cautions. Typically you will hear something like "Caution, Caution, Caution, Car high in 3." After the caution is out, cars will be directed to where they belong in the lineup, and, if applicable, be told to begin double filing for a restart. On track officials may also direct you to your appropriate spot if necessary.

8. When removing the earpiece from your ears, pull on the foam piece directly rather than pulling on the wires. Pulling the wires can cause them to come loose from the ends and will void any warranty on the earpieces.

9. Be careful with your Receiver. While it is designed to be used in racing applications, it is still an electronic device and is susceptible to the usual dangers such as water damage and breakage. You are responsible for any damage you do to the unit.

Tips for getting the most out of your Receiver

LATE MODEL RULES

Sealed Crate Engine Weekly Bonus: (*Highest 3 Finishing Crate Engine Cars*) 1st \$100, 2nd \$75, 3rd \$50 (in addition to payout)

Body Rules:

Lucas Oil or UMP

Weight:

Aluminum Block: 2300 lbs.

Steel Block (Including Sealed Crates): 2200 lbs.

NO BURN-OFF, WEIGHT IS WITH DRIVER AT CONCLUSION OF RACE!!

Spoiler:

8" Spoiler on all cars

Tire Rule: (TIRE SAMPLES WILL BE TAKEN) (ABSOLUTELY NO ALTERING OF TIRES WITH CHEMICALS!)

Front Tires:

Any tire or manufacturer allowed – Open

Rear Tires:

Open Motors: Hoosier: 1350, 1600, & LM40

American Racer: 48 & 56

Sealed Crate Motors: Hoosier: FT400, LSB21, LSB55, Crate21, Crate 55, 1350, 1600, LM40, 1640, Spec D55

American Racer: Crate Spec 48, Crate Spec 56, 48, 56 **** Anyone found with chemically altered tires, will be suspended for 3 races and will lose all their points accumulated up to that race. Anyone found a 2nd time with chemically altered tires will be suspended for the remainder of the season. If a Tire Sample is taken from any car out of the "A"-Main, the drivers money will be held until the tire sample has cleared the lab.**

Carb:

Only 1 Carburetor permitted, naturally aspirated.

Misc:

Raceceivers and Transponders are MANDATORY at all events. *(Rentals are Available at track)*

OPEN-WHEEL MODIFIED RULES

Body:

UMP Rules Apply

Weight:

Open Steel Block - 2400 lbs. (minimum)

GM602 or GM604 Sealed Crate – 2350 lbs. (minimum)

No Aluminum Motors Permitted

Tires: (some compounds are discontinued by Mfg, but are listed due to some still in use by drivers)

Front Tires (Siping allowed on Front due to carry-over from 2016 season)

Hoosier Tires: Medium, A40S, M-30s, A40, Hard, H40, & M-60 ("D", Medium 100 & 200 Not Allowed)

American Racer: Medium, Hard, & Extra Hard

Rear Tires (The Only Siping of Rear Tires Will Be: Hoosier M-60 & American Racer Ex Hard)

Hoosier Tires: A40S, M-30S, A40, Hard, H40, & M-60

American Racer: Hard, & Extra Hard

**** No Grooving Allowed****

***** Anyone found with chemically altered tires, will be suspended for 3 races and will lose all their points accumulated up to that race. Anyone found a 2nd time with chemically altered tires will be suspended for the remainder of the season. If a Tire Sample is taken from any car out of the "A"-Main, the driver's money will be held until the tire sample has cleared the lab.**

SPECIAL NOTE: Beginning with 2018 Racing Season, The Following Tire Rule Will Go Into Effect:

Front & Rear: Hoosier: M-30S & M-60 or American Racer: Hard & Ex Hard

(These will be the ONLY Tires Allowed in 2018)

Carb:

Only 1 Carburetor permitted, naturally aspirated.

Suspension:

No Traction Control Devices of Any Kind Allowed

Misc:

Raceceivers and Transponders are MANDATORY at all events. *(Rentals are Available at track)*

SUPER STOCK RULES

GENERAL

- A. Must have stock frame that extends to at least the center of the rear end. B. Unibody frames acceptable. Must be tied together with 1"x2" 3/16" wall square or 1 3/4" 120 wall round tubing (Minimum)
- C. Camaro and nova front stub cars may be tube from the front clip back for leaf spring rear suspension ONLY. Full frame leaf spring conversions are ok.
- D. 104" Wheel base. (Minimum)
- E. Front bumpers must be constructed of 1 3/4" round or 1 1/2" square .095 tubing (Maximum). Must turn and extend rearward behind the nose a minimum of 6" (No welded 90* or sharp edges).
- F. Rear bumpers must be constructed of 2" round or 2" square .095 tubing (Maximum). Must turn and extend forward behind the quarter panel a minimum of 18" (No welded 90* or sharp edges).

EXTERIOR BODY

- A. Visible Numbers required on both sides and roof. 20" Minimum
- B. Steel, Composite or Aluminum body panels will be permitted. Aftermarket stock appearing plastic nose is permitted. (Wedge late model type front nose pieces NOT ALLOWED)
- C. Wagon Style Roof is Okay.
- D. 8" overall Maximum height rear spoiler permitted. (No other spoilers permitted)
- E. 3 spoiler supports Maximum. All spoiler supports will be no more than 23 1/2" overall length, 4" max overall front height, and 8" max overall rear height. (See template for example KDRA site)

SAFETY

- A. Racing seat required.
- B. 5 point nylon quick release harness and safety belt required. Must be in excellent working condition at all times. (Harnesses must be attached to frame)
- C. Approved fire suit mandatory. Fireproof; hood, gloves, socks, shoes and underwear recommended.
- D. Full face helmet is required with lexan shield. (Must be minimum of snell 85 approved)
- E. Driver side window net minimum of 12" X 12" with 3/4 webbing is Recommended.
- F. An operational fire extinguisher properly mounted within the driver's reach is mandatory.
- G. Drive shaft loop required. Drive shafts must be painted white.
- H. Cockpit mounted master power kill switch required. (Must be acceptable from drivers window)
- I. Isolators required on all fuel pressure gauges located inside the cockpit. (No fuel permitted inside the drivers compartment)
- J. Battery must be securely fastened and contained away from fuel cell.
- K. Fuel cell must be secure and firmly mounted in the trunk area. Fuel line must run under floor and/or covered in 1 1/2 inch tubing.
- L. Must be approved fuel cell.

ENGINE

- A. Any Cubic Inch Allowed
- B. Cast Iron Blocks ONLY. (No Aluminum Blocks)
- C. Cast Iron Heads ONLY. (No Aluminum Heads)
- D. Aluminum or Cast Iron Intakes Allowed
- E. Only 1 Carburetor permitted (2 or 4 Barrel), naturally aspirated. Gas Only. (No Alcohol, Methanol, Nitrous)
- F. MSD ignition boxes allowed. (No Magnetos)

- G. No Turbos
- H. No traction control devices of any kind allowed.

TRANSMISSION

- A. Any transmission is allowed. (Must have working forward and reverse gears)

SUSPENSION

- A. Weight Jacks are allowed.
- B. 1 shock per wheel. (No Adjustable Shocks, Canister Shocks, Aluminum Body Shocks, or Coil Overs) (Schrader Valves Acceptable)
- C. Center of the #1 Spark Plug must be Even with Front Ball Joint.
- D. Control arms can be aftermarket.
- E. Rear Control Arms: Uppers – 10” Min / 12” Max Lower – 18” Min / 21” Max
- F. No J Bars, No Pull Bars, No Lift Bars, No Coil Over Shocks, No Brake Floaters No Coil Over Eliminators, No Panhard Bars, No Birdcages.
- G. Leaf spring rear suspension is acceptable
- H. Coil spring cars will use factory design (Example: Metric cars will use 2 triangulated upper and 2 lower trailing arms)
- I. 9” Ford rear ends are permitted. Floated rear ends acceptable. (No Quick Change Rear Ends Allowed)
- J. No traction control devices of any kind allowed
- K. No Strut Cars

TIRES & WHEELS

- A. 8” Tires: (some compounds are discontinued by Mfg, but are listed due to some still in use by drivers)

Front Tires (Siping allowed on Front due to carry-over from 2016 season)

Hoosier Tires: Medium, A40S, M-30s, A40, Hard, H40, & M-60 (“D”, Medium 100 & 200 Not Allowed)

American Racer: Medium, Hard, & Extra Hard

Rear Tires

(The Only Siping of Rear Tires Will Be: Hoosier M-60 & American Racer Ex Hard)

Hoosier Tires: A40S, M-30S, A40, Hard, H40, & M-60

American Racer: Hard, & Extra Hard

**** No Grooving Allowed****

SPECIAL NOTE: Beginning with 2018 Racing Season, The Following Tire Rule Will Go Into Effect:

Front & Rear: Hoosier: M-30S & M-60 or American Racer: Hard & Ex Hard

(These will be the ONLY Tires Allowed in 2018)

WEIGHT

- A. 3000 lbs MINIMUM weight

MISC

Receivers and Transponders are MANDATORY at all events. (*Rentals are available at track*)

STOCK 4-CYLINDER RULES

1. Any car or truck that came from the factory with a single or dual cam 4 cylinder engine permitted.
2. Steel body must be used. Aftermarket replacement body components allowed but must be Steel. No aluminum bodies or body panels allowed.
3. Stock engine type that came in the car/truck must be run. **(No aftermarket blocks, heads, or intakes allowed this Includes Esslinger & Other Performance Companies)** Engine modifications allowed but block, head, and intake must remain stock. **(No Exceptions)**
4. Aluminum heads permitted on engines that came from the factory with an aluminum head. **No aftermarket heads allowed.**
5. Fuel injection permitted on engines that came from the factory with fuel injection. **No aftermarket fuel injection allowed.**
6. Stock type intakes only. **No aftermarket intakes allowed.**
7. Aftermarket headers will be allowed.
8. All glass, mirrors, body molding and trim must be removed. All insulation and any other combustible material must be removed. Pedals must remain stock. Dash may be modified for roll cage clearance.
9. A box type 6 point roll cage of 1 1/2" X .095 wall minimum steel tubing is required. Roll cage legs must be welded to 1/8" plates, 4" X 8" minimum size. Truck frames may use a 2" X 3" tubing to construct a perimeter frame to attach roll cage and door bars. Doors on both sides must have 3 bars, 1 1/2" X .095 minimum. Passenger side may be an "X" but must have 3 bars. The roll cage must be a box over, behind and in front of driver. The hoop behind the driver must have a diagonal brace. Roof loop must have a center bar. Extra bracing inside the cockpit is allowed.
10. Doors must be welded or chained shut. Windshield must be replaced with heavy gauge wire mesh. 3 bars of 3/8" diameter must be welded to the roll cage in front of driver.
11. **Tow Hooks/Chains MUST be Securely Mounted on Front and Rear of car** to provide towing points.
12. Stock suspension only. Absolutely **NO** modified suspension components of any kind will be permitted. This includes weight jacks, adjustable rod ends, etc. Replacement bushings ok.
13. Strut towers may be reinforced. Right front hubs may be reinforced. Wheel centers may be reinforced. Larger wheel studs and nuts are recommended.
14. Street type radial tires only. Racing tires and recaps are strictly prohibited. Hoosier and American Racer tires prohibited.
15. 13" or 14" tires only on Rear-wheel Drive Cars. 13", 14", or 15" tires allowed on Front-wheel Drive Cars.

**** Anyone found with chemically altered tires, will be suspended for 3 races and will lose all their points accumulated up to that race. Anyone found a 2nd time with chemically altered tires will be suspended for the remainder of the season. If a Tire Sample is taken from any car out of the "A"-Main, the drivers money will be held until the tire sample has cleared the lab.**

16. Aftermarket wheels allowed. Maximum width is 8". Only 1 Bead Lock Wheel allowed per car. *(Right-Rear on Rear-wheel Drive & Right-Front on Front-wheel Drive Cars)*
17. Fuel cell in steel can, or steel tank may be securely mounted in trunk. It must have a firewall between the tank and driver. Must meet the safety approval.

18. Pump Gas or Racing Fuel is Okay. **(No Alcohol, Methanol, Nitrous)**
19. Battery must be securely fastened down, if in cockpit it must be completely enclosed. Must run battery master disconnect switch within reach of driver.
20. Racing seat mandatory. A quick release 5 point racing type seat belt is required. Seat and seat belts must mount to frame or roll cage, and meet safety approval.
21. Must wear approved helmet and fire suit.
22. Raceceivers and Transponders are MANDATORY at all events. *(Rentals are Available at track)*

RULE BOOK DISCLAIMER

1. The rules and/or regulations set forth herein are designed to provide for the orderly conduct of racing events and to establish minimum acceptable requirements for such events. These rules shall govern the condition of all events, and by participating in these events, all participants are deemed to have complied with these rules. No express or implied warranty of safety shall result from publications of or compliance with these rules and/or regulations. They are intended as a guide for the conduct of the sport and are in no way a guarantee against injury or death to a participant, spectator or official.

2. The race director shall be empowered to permit minor deviation from any of the specifications herein or impose any further restrictions that in his opinion do not alter the minimum acceptable requirements. No expressed or implied warranty of safety shall result from such alteration of specifications. Any interpretation or deviation of these rules is left to the discretion of the officials. Their decision is final.

WE RESERVE THE RIGHT TO MAKE REVISIONS, IF NEEDED!
